CALL FOR ABSTRACTS

Share Your Research. Shape the Future.

Researchers, academics, postgraduate students, undergraduate students, and industry professionals are invited to submit abstracts of original scientific research relevant to the six conference tracks.

Contributions in basic and applied sciences, interdisciplinary research, emerging technologies, innovation, and industry-oriented applications are welcome.

Presentation Formats

Oral Presentation | **Poster Presentation**

The final presentation format will be determined by the scientific committee.

Abstract Submission Requirements

- Abstracts must be written in English.
- Maximum abstract length: 300 words.
- Include the title, author names, affiliations, and corresponding author's contact information.
- Provide 3–5 keywords.
- Summarize the research background, objectives, methodology, principal results, and conclusions.
- Submit through the official conference abstract submission form.

Important Dates

30 Jan 2027
Early abstract submission deadline

1 Mar 2027
Late abstract submission deadline

Publication Opportunities

- Accepted abstracts may be included in the conference Abstract Book, subject to the arrangements approved by the organizing committee.
- Opportunities for full-paper submission and publication in the Faculty of Science journal will be announced separately, subject to editorial approval, journal requirements, and peer review.

SCIENCE, PARTNERSHIP AND IMPACT

About SCI 2027

SCI 2027 is the first international conference of the Faculty of Science, Cairo University.

It aims to bring together researchers, academics, students, innovators, and industry professionals to exchange scientific knowledge, showcase research advances, and foster meaningful partnerships between academia, industry, and society.

Under the theme “Science at the Core of Innovation: Towards Effective Partnership and Sustainable Impact,” the conference provides a platform for interdisciplinary dialogue, research collaboration, and the translation of scientific discoveries into practical solutions that address emerging challenges and support sustainable development.

CONFERENCE VISION

To establish a dynamic platform for scientific excellence, effective partnerships, and impactful innovation, connecting research with industry and societal needs.

Conference Objectives

1. **Promote Scientific Excellence**
   Showcase advances in basic and applied sciences across diverse scientific disciplines.
2. **Build Effective Partnerships**
   Strengthen collaboration among universities, research institutions, industry, and other stakeholders.
3. **Promote Innovation and Entrepreneurship**
   Encourage the translation of scientific knowledge into innovative applications, technologies, and entrepreneurial opportunities.
4. **Empower the Next Generation**
   Provide students and early-career researchers with opportunities to present their work, exchange ideas, and develop professional connections.
5. **Achieve Sustainable Impact**
   Support scientific contributions that address environmental, economic, technological, and societal challenges.

SCIENTIFIC TRACKS

Six Research Tracks

SCI 2027 welcomes scientific contributions across six major research tracks.

TRACK 1

Life Sciences and Biodiversity

Biological sciences, biotechnology, molecular biology, genetics, microbiology, bioinformatics, biodiversity, conservation biology, and related interdisciplinary research.

TRACK 2

Environment and Earth Sciences

Environmental monitoring, climate change, environmental pollution, geology, geochemistry, geophysics, natural resources, environmental protection, and sustainability.

TRACK 3

Materials and Chemistry

Analytical, organic, inorganic, and physical chemistry; materials science; nanomaterials; advanced and functional materials; and innovative chemical technologies.

TRACK 4

Physics, Energy and Space Sciences

Applied and theoretical physics, renewable energy, energy technologies, optics, astrophysics, astronomy, space sciences, and emerging physical technologies.

TRACK 5

AI, Data Science and Computational Science

Artificial intelligence, machine learning, big data analytics, computational modeling, scientific computing, mathematical modeling, statistics, and data-driven scientific discovery.

TRACK 6

Innovation, Entrepreneurship and Science for Society

Scientific innovation, entrepreneurship, technology transfer, research commercialization, academia–industry collaboration, science communication, and scientific solutions to societal challenges.

Interdisciplinary research contributions relevant to the conference tracks are encouraged.

SCIENTIFIC PROGRAMME & ACTIVITIES

What to Expect

Scientific Program

- Keynote and invited lectures
- Oral research presentations
- Poster presentation sessions
- Interdisciplinary scientific discussions
- Emerging research and technology showcases

Academia–Industry Partnership

- Industry–academia networking
- Research addressing industrial challenges
- Technology transfer and research commercialization
- Opportunities for collaborative research and development
- Innovation and entrepreneurship discussions

Student and Early-Career Research

- Undergraduate research presentations
- Postgraduate research contributions
- Opportunities for early-career researchers
- Student innovation and research showcases

Special Sessions and Workshops

Details of confirmed workshops, specialized sessions, and invited speakers will be announced in the final conference program.

A Platform for Scientific Exchange and Collaboration

SCI 2027 seeks to create meaningful connections between scientific discovery, technological innovation, industrial needs, and societal priorities.
